## About Me

---

I am a passionate Junior Programmer with strong knowledge in HTML, CSS, and JavaScript. I enjoy building responsive websites and continuously improving my frontend development skills. I am eager to grow, learn from real-world projects, and contribute to innovative teams.

## Education

---

### 2020-2023 | SMKN Sukoharjo | Teknik Komputer dan Jaringan

Majored in a technology-related field, where I learned the fundamentals of web development, focusing on HTML, CSS, and JavaScript.

### 2023 - Present | Institute Bakti Nusantara | Sistem Informasi

Currently pursuing a Bachelor's Degree in Information Systems. Actively learning about data systems, software development, and web technologies to strengthen my programming and analytical skills.

## Work Experience

---

### January 2024 – Present | Junior Front-End Developer (Freelance)

Since January 2024, I have worked as a Freelance Junior Front-End Developer, building responsive websites using HTML, CSS, JavaScript, and Tailwind CSS. I collaborate with designers to create user-friendly web interfaces.

### 2023 | Front-End Intern – Starbuck Pringsewu (Startup)

From July to December 2023, I interned at Starbuck Pringsewu startup, helping develop landing pages and UI components with Tailwind CSS and React basics. I gained practical experience working in an Agile team.

## Skills

---

Figma Developer | Frontend Developer | Graphic Design
